

MECHATRONICS CAREER EXPLORATION PROGRAM

Students attending this program will learn about the rapidly-growing Mechatronics and Industrial Controls Technology field. Electronics, mechanics, pneumatics, hydraulics and computer control systems are being integrated to create new and improved automated manufacturing production systems. Students with an interest in pursuing a career in electronics, robotics, maintenance, manufacturing, engineering, or automation will definitely want to check out this one-day program.

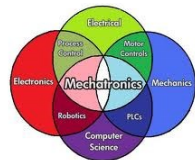

About the Program:

Eligibility: High School Sophomores, Juniors and Seniors

Contact: Enitza Jaramillo
Case Manager/Recruiter
York County School of Technology
Adult & Continuing Ed. Center

Location: York County School of Technology
2179 S Queen St.
York, PA 17402 .

Date: Thursday May 3, 2018
10:30am - 2:00pm

Program Schedule Thursday, May 3, 2018

Topics to be Covered:

- The multi-discipline nature of the mechatronics field
- Careers and Education in the Mechatronics field
- Overview of automated systems to include Robotics
- Modern automated production equipment
- Practical Troubleshooting steps used to solve complicated Electro-mechanical problems
- Lunch and Networking with Staff

Visit www.ycal.us for the application or see your High School's Guidance/Career Coordinator for more details
