

NURSING CAREER EXPLORATION PROGRAM

For students pursuing a career in the medical field, this one-day program will help to gain a better understanding of the education required and the finer aspects of being a nurse. Nurses perform many jobs such as providing and coordinating patient care, educating patients and the public about various health conditions, providing advice and emotional support to patients and their family members, and even assisting surgeons in the operating room.

About the Program:

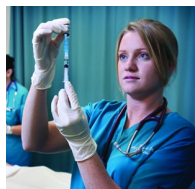

Eligibility: High School Juniors and Seniors

Contact: Stephanie Workinger, Workforce Development Coordinator—WellSpan Health

Location: WellSpan Health (York Hospital) 1001 South George St. York, PA 17403
