

ENGINEERING CAREER EXPLORATION PROGRAM

Program Schedule

Wed. November 20, 2019

3:00PM - 5:30PM

Topics to be Covered:

- Engineering Careers
- Engineering Programs of Study
- Engineering Panel
- Campus & Engineering Classroom/Lab Tour
- Engineering Facility Tour

Visit www.ycal.us for the application or see your High School's Guidance/Career Coordinator for more details

[CLICK HERE TO VIEW THE CAMPUS MAP!](#)

Students attending this program should park in any of the student lots (Labeled "D" on the map).

Once parked, students should meet at the Admissions Office in the Main Classroom Building (Labeled "3" on the map).

Presented By:

**PennState
York**

Students who are math and science-driven, showing an interest in how things work, will want to take advantage of this opportunity. Students attending can look forward to exploring more about the engineering industry, educational paths, and career options after completing their studies through a discussion with a panel of several key members at various firms working in the field of engineering. The second part in this program series will involve a tour of a local facility to display some of the applications of engineering in the real world.
