

HEALTHCARE CAREER EXPLORATION PROGRAM

Do you have a desire to help and care for others? If so, a position in the field of Healthcare may be in your future. This program will explore several potential career paths in the field of Healthcare that may require a 2-year degree, 4-year degree, or a special certification after High School. If you have any interest in working in this field but have not committed to a specific course of study, this is a great program to check out to explore your options in the field of Healthcare services!
